Mrs. Johnson's husband, Charles L Johnson, is the engineer at Moore & Smith's lumber mills at Cuffey's Cove. His family consisted of his wife and an infant one month old, who occupied the upper portion of a two-story house situated on the bank of the river not more than twenty feet from the edge, and at the foot of a hill. The ground had become soaked by the recent heavy raine. About 9 o'clock Sunday morning, while the men were working among the logs, they noticed indications of an impending land slide. Two of them ran as fast as they could to give an alarm to persons in the house and assist them in escaping. There were but three persons in the house at the time. THE ANTI-POLYGAMY BILL,

The debate in the Senate on the antipolygamy bill showed that there are polit cians who would rather permit the continuance of the abuse at which that measure is aimed than restrict what they are pleased to call the liberties of the citizen. The objection to that provision of the bill which makes polygamists ineligible to vote or hold office, namely, that it punishes a whole class of men without trying or convicting them, is nonsensical. When a man is known to be a polygamist he is also known to be a law-breaker. Congress has already tried the experiment of letting the The Breaking of a Levee Inundates an Mormons abolish polygamy themselves,

Pendleton objected to several features of the bill, particularly to the one excluding from the jury-box known polyamists, in trials for polygamy, etc. He said that this bill discriminated against a man fathful to several wives, and in favor of one holding adulterous relations. Sherman said he would vote for the bill, but doubted it in the several wives and in favor of amendments in these respects.

WASHINGTON, February 16th. - During the House debate on the apportionment bill to-day, Prescott of New York tried to make a point in defense of the Census Committee measure by saying although the allotment of only five members to California would leave an unrepresented surplus of 68,000 souls, this would not be unjust, he said, because the California Constitution and laws de-prived 75,000 Chinese of the right to vote, and hence, under the fifteenth amendment, the representation ought to be reduced pro portionately. This statement brought the Pacific coast representatives to their feet, eager to correct it, but Prescott declined to yield. The bill will undoubtedly be passed to-morrow upon a basis of the amendment adopted this afternoon fixing the total num-ber of representatives at 325, and thus giving California six members.

METROPOLITAN THEATER.

The engagement of the Leavitt "All Star Specialty Company" opened at the Metropolitan Theater last evening. The audience was not large, no doubt owing to the strength of the counter attraction of the Turners' masquerade at the Pavilion, but those who were present were entirely satisfied with the presentation, and enjoyed an evening of almost incessant and irrepressible healthgiving laughter. The character acting is good throughout, and hardly a part taken falls below the higher plane of characteracting, while some are not to be surpassed in the field occupied by the company. There are twenty five members of the troupe, all of whom have won star honors in their several specialties, and the warm and highly complimentary reception accorded them last even-ing, from the beginning to the close of the performance, was in keeping with that with which they were greeted at the Bush-street Theater at San Francisco throughout the five weeks engagement just closed. Some of the members were so heartily and persistently encored last evening that they were compelled at one time to ask of the audience to allow the performance to proceed, to enable the programme to be proceeded with. Among the leading attractions presented, the bicy cle-riding of J. Selbini and Mile. Lilly, and their performances, while riding at full speed upon the stage, were the most pronounced success. This rises almost to the realm of the marvelous, and was greeted with most intense and constant applause. It is a cul-mination of brilliant feats in bicycle riding, accompanied with many of the most successful exploits in the juggler's art. The gym nastic performances of the French troupe Davene, upon trapeze, is also of a high order. The performance throughout was most heartily satisfactory to the audience, and nothing whatever contained in it in the least indelicate. The reom was well warmed and comfortable, free from draugh's, and a noticeable feature of the optentions. feature of the entertainment is that it has not a single drop-curtain wait, and the thirsty among the audience, for once, had to go with-out their usual cloves. The same; rogramme will be presented again this evening, and those who wish to attend will do well to apply early to-day for their reserved seats.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting of burning sensation, and a weakening of the system is a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
